Our President's Message

As we welcome fall we look forward to cooler weather, children settled into school and football. It is also a time when Hunt Military Communities launches their annual Hunt Helping Hands initiative. This year we have once again organized a food drive in support of our military families and food insecurity. Data we have received indicates many military families face this challenge and

could use additional support. Details about your communities food drive will be emailed, posted on social media, and cards left at each door. We are partnering with various groups on base who may have resources for distribution and we are also working with a local food bank closest to your community. Our goal is to make sure our families are taken care of and those in need receive the resources they need. Additionally, Hunt Military Communities is excited to collaborate with Hire Heroes USA to assist military service members and their spouses and meaningful careers upon completion of their military service. Our donation will fund career transition services for veterans, military spouses, and transitioning service members. We will also collaborate with them to source more military veteran and spouse talent for our teams. More to come on this fantastic opportunity to assist those needing career advisement and services. Thank you for allowing us to serve you.

DOMESTIC VIOLENCE

MYTH vs. FACT

Domestic violence only happens to women.

1 in 3 women and 1 in 4 men have been victims of [some form of] physical violence by an intimate partner within their lifetime.
30-50% of transgender people will experience domestic violence in their lifetime.

Drugs, alcohol, stress, and mental illness are the causes of DV.

While drugs, alcohol, stress, and mental illness can be factors in an abuser's life and can certainly make an abusive situation more complicated, these things do not cause domestic violence.

Abusers are just out of control and need anger management.

Abusers use many deliberate tactics to maintain power and control in a relationship. Sometimes these tactics can include physical violence and aggression, but there are many other ways that control is established.

Domestic violence is always physical abuse.

While physical abuse can be one way of maintaining power and control, it does not occur in every abusive relationship and is usually not the only form of abuse if it is occurring. Emotional abuse, financial abuse, sexual abuse, isolation, threats, and intimidation are all forms of domestic violence.

If a victim doesn't leave, it must not be that bad or they are ok with how they are being treated.

Leaving an abusive relationship is extremely difficult. On average, a victim will try to leave an abusive relationship at least 8 times before leaving successfully. Some of the things abusers do to make leaving hard can include: creating financial dependence, using children as a coercion tool, making threats of violence or legal retaliation, or using the court system to keep control of a victim even after they leave.

YWCA Spokane's #EndTheSilence campaign goal is to stop victim blaming and entreat the community to stand alongside victims and survivors of domestic violence as safe allies and remind them that they are not alone. [Learn how you can End The Silence at ywcaspokane.org](https://www.ywcaspokane.org).
